

SUBMISSION REQUIREMENTS

RE-SIDING

The following plus a set of photographs including the front of the house for context.

Cases in which existing siding, or portions thereof, are to be replaced with aluminum, vinyl, or any other manufactured material require Architectural Board of Review approval. The following information must be submitted:

1. Manufacturer's samples of siding indicating style(s), color(s), texture, and proportion.
2. Clear color photographs of all elevations to receive new siding which clearly and accurately depict all details and proportions.
3. Cross section and detail drawings, to scale, of the rakeboard, soffit and fascia, and window casement area and, as applicable, details of any significant existing architectural details.

Special Concern: All re-siding should allow for the preservation of any significant architectural details.

ALL DRAWINGS MUST BE DRAWN TO A MEASURABLE SCALE AND DIMENSIONED

Commonly 1/4" = 1' (site plan 1" = 20')
